

# Vixtrola, Let It End

You make me afraid of you  
'Cause time and again  
We always restart and then  
Theres always a bend

It wasnt the way I planned it  
I'm trying to understand it -

Stop stabbing at my heart  
Taking me apart  
Making me feel everything again  
You do it all the time  
Disappear I'm fine  
Then come back  
'Cause you just won't let it end

I wait for your anger  
You're not easy to please  
But you don't sleep well without me  
It's hard to believe

It wasnt the way I planned it  
I'm trying to understand it -

Stop stabbing at my heart  
Taking me apart  
Making me feel everything again  
You do it all the time  
Disappear I'm fine  
Then come back  
'Cause you just wont let it end

I can see you  
Don't see better things in front of us at  
All I want is anything but what we did before

Stop stabbing at my heart  
Taking me apart  
Making me feel everything again  
You do it all the time  
Disappear I'm fine  
Then come back  
'Cause you just wont let it end

Stop stabbing at my heart  
Though we are apart  
Making me feel everything again  
You do it all the time  
Disappear I'm fine  
Come back, 'cause you just won't let it end

Stop stabbing at my heart  
Taking me apart  
Making me feel everything again  
You do it all the time  
Disappear I'm fine  
Then come back  
'Cause you just wont let it end
