

Voicst, Shut up and dance

So what the fuck did you say?
Not a word about all that happened
And when the plan hits the head,
It's a matter of attention
With your shallow words
You're missing all that's happening
Not a word about the cool
When the song is near the head
It's a matter of attention
Why won't you listen?
Shut up and dance
Cause if you want to hear stories
It's gonna to get wild
Won't you listen?
Shut up and dance
So what the fuck did you say?
Not a word about the truth
Not a clue of what is fake
With your shallow words
You're missing all that's happening
Not a word about the cool
I see a song near your heart
But where the fuck is your attention?
Why won't you listen?
Shut up and dance
Cause if you want to hear stories
It's gonna to get wild
Won't you listen?
Shut up and dance
I was distracted a second, and now I lost the plan
I was distracted a second, and now I lost the plan
I was distracted a second, and now I lost the plan
I was distracted a second, and now I lost the plan
I was distracted a second, and now I lost the clue
I was distracted a second, and now I lost the clue
I was distracted a second, and now I lost the clue
I was distracted a second, and now I lost the clue
I was distracted a second, and now I lost the plan
I was distracted a second, and now I lost the plan
I was distracted a second, and now I lost the plan
I was distracted a second
Well
Fuck you
