

# Voivod, Nuage Fractal

All under one command  
Clouds overcast the land  
Infinite division  
Chaotic creation  
Patterns of flat spiral  
Spinning a triangle  
Wind on the schizosphere  
Nuage fractal appears

Out there!

Dynamic intruder  
Mutating whole numbers  
Systems are compromised  
Viruses organize  
One simple memory  
In every theory  
All random elements  
Become determinants

Out there lives someone  
Pirate space kingdom

We get lost  
In this chaos  
Too soon for us  
To be in touch

Tomorrow we will know  
Something about the code  
Salvation's on it's way  
In the light of today  
Cloud of all destiny  
Ghost of reality  
Nobody can detect  
The butterfly effect
