

# Voivod, Planet Hell

Now, is this real?  
Much too real  
hell, planet hell  
much too real  
chemical weapons  
burning citizens  
body count rising  
chaos  
digital combat  
ruin and debris  
decomposed bodies  
rancid, planet  
hell, planet hell  
much too real  
deadly enemy  
murderous machines  
countless homicide  
conflict  
country vs. country  
social anarchy  
deconstruct order  
anguish, planet  
hell, dwell, die, why?  
Planet in despair  
paralysed with fear  
frequent suicide  
downfall  
technical abuse  
nature in decay  
nuclear demise  
outrage  
Hell, dwell, die, why?  
Hell, dwell, die...
