

# Voivod, We Carry On

So we are ready for more adventures  
No crystal ball to see the future  
Driven by a need to create  
On every mile we ride our fate

In my heart  
In my soul  
In my blood  
In my bones

It really does make you feel strong  
Like you would be forever young  
Day after day sharing and giving  
Reinventing the ways of thinking

In my heart  
In my soul  
In my blood  
In my bones  
In my hands  
On my face  
In my eyes  
Here's my rage

This is our time  
This is our song  
This is our lives  
We carry on

No need to say, it's far from pure  
Once you've touched it, there is no cure  
We ride our way throughout the sun  
We just got here, and now we're gone

In my dreams  
In my hope  
In my fear  
In my goals  
In the sky  
All around  
In the light  
Underground

This is our time  
This is our song  
This is our lives  
We carry on
