Volbeat, A Moment Forever v

Keep it up my baby don't go don't leave it on top Keep it up my baby don't go don't do it on top Keep it on my baby ***** pop Keep it up my baby don't go don't leave it on top See all the lovers walk hand in hand in the park And hide all the action Once couple are frozen and bondage forever more With chains around the ankles Standing like statues, so lucky to see them here And feeling their presence Their love for each other was taking away by force For ages and ages Be silent where ever they go Cos their moment is forever Be silent whenever they dance Their story goes on that they're moving away by thoughts From city to city Showing that love can't be killed even after dark, and even after their death Dancing with shadows so lucky to see them here And feeling their presence The chain around ankles rattling their melo song forever and ever Be silent where ever they go Cos their moment is forever Be silent whenever they dance oh! A bow for the couple that shows that their moment is forever Be silent whenever the dance
