

Volbeat, Alienized

I like to be me, but that's not to be
I just wanna find the way to get home
Before I get old, but where is the light
I wash my rusty burning glory
That never ever fit
To take it easy is not that easy
When time is a bitch

What you see here, is what you get here
I just wanna find the way to change it
The way to accept it, but when is my time
I wash my rusty burning glory
That never ever fit
To take it easy is not that easy
When time is a bitch

Well, I feel that I don't belong here
Alienized in a world of nothing
Don't we all like to be just ourselves
Forced to be socialized for money
Couldn't care less for jobs I've been in
Well one day I will go the rock n' roll way

I'm alienized, I'm alienized

Well, I feel that I don't belong here
Alienized in a world of nothing
Don't we all like to be just ourselves
Forced to be socialized for money
Couldn't care less for jobs I've been in
Well one day I will go the rock n' roll way

I'm alienized, I'm alienized
