

# Volbeat, Everything's Still Fine

Got my wheels in motion  
I hit the road, I don't know why  
The key to sell myself is fine  
Behind my laugh there is a sign

[Chorus:]  
Tell everyone everything is fine  
Tell everyone everything is fine  
Don't look for me  
Tell everyone everything is fine

Got my wheels in motion  
I drive 100 miles at night  
Still hypnotized by own mind  
Behind my laugh there is a sign

[Chorus]  
Still on the road, yeah tell them that  
The radio plays always, yeah  
I'm coming home and I'm okay  
Just don't know where I'm gonna stay

[Chorus]
