

Vonda Shepard, Neighborhood

Here the photo i've been looking for
It's a picture of the boy next door
And i loved him more than words could say
Never knew it until he moved away

Faded pictures in my scrapbook
Just thought id take one more look
And recall when we were all
In the neighbourhood

Here's a photo of the neighbourhood
There's the corner where we stood
Here's a snapshot of Dad's old car
Never got us very far

Chorus
Faded pictures in my scrapbook
Just thought i'd take one more look
And recall when we were all
In the neighborhood

And all those friends
Where did they go?
Oh i dont know
And all those friends we used to know
Oh oh oh in the neighbourhood
