

Vyviennne Long, They're Not Waving

Searching for a place to be
A face to smile agreeably
I wondered round about the room
I cut my way through such perfume
I saw you standing by the door
Waiting , watching, waiting for me

Cus you're the only boy for me
And I'm the only girl for you
I knew it when we met last week
So call me when you know it too
So call me, so call me
So call me, so call me

Crazy thoughts go through my mind
But I reply that I am fine
You move a little closer then
Feel your breathe and wonder when
You watch me smile
I watch you talk
Funny faces just to amuse me

You're the only boy for me
And I'm the only girl for you
I knew it when we met last week
So call me when you know it too
So call me, so call me
So call me, so call me

Searching for a quiet place
To disappear without a trace
Crowded rooms get much too much
And I just want to feel your touch
So take my hand
And take the wine
Don't look back cus they're not waving

You're the only boy for me
And I'm the only girl for you
I knew it when we met last week
So call me when you know it too

Cus you're the only boy for me
And I'm the only girl for you
I knew it when you kissed my cheek
Knew it when you laughed on cue
So call me, so call me
So call me, so call me
