W.A.S.P., Run To The Future

Spending all my time to make it right Push me always to the limit Try to make it better all my life Living for the music

Every day you're gonna find the way Every day we're gonna run to the future Anyway I wanna save the day

Every day we're gonna run to the future

I don't wanna keep on walking around Looking for my real true nature Try to make things better all the time Leaving with the music
