

# W.A.S.P., Running Wild In The Streets

I'm running to beat hell,  
looks like I've got to be the leader  
As my forces yell,  
you can hear 'em,  
can't you hear them  
All the way- we'll go the distance now  
All the way- stand behind me now  
All the way- no turning back  
All the way 'cause we are together

I'm standin' proud,  
we're screaming loud,  
I'll lead the crowd  
Running wild in the streets

I'm standin' proud,  
we're screaming loud,  
I'll lead the crowd  
Running wild in the streets

A heavy dose of mean,  
yeah, I'm a lethal combination  
Hear my forces scream,  
you can see them,  
can't you see them  
All the way- we'll go the distance  
All the way- stand beside me now  
All the way- no turning back  
All the way we are together

I'm standin' proud,  
we're screaming loud,  
I'll lead the crowd  
Running wild in the streets

I'm standin' proud,  
we're screaming loud,  
I'll lead the crowd  
Running wild in the streets

I'm standin' proud,  
we're screaming loud,  
I'll lead the crowd  
Running wild in the streets

I'm standin' proud,  
we're screaming loud,  
I'll lead the crowd  
Running wild in the streets
