## W.A.S.P., Shoot From The Hip

All my life I've taken what I want
Give an inch, take a mile
Always on the hunt
Ooh - sex, money, fast cars, never get my fill
I ride hard and die free
Paying for my thrills
Fire, water, moonshine, going to my head
He and my pistols loaded
Go out and knock'em dead

(REFRAIN:)
I'm gonna shoot it, bang-boom
Shoot it from the hip
Got it loaded bang, pull the trigger boom
I don't never miss

I don't never miss
I'm gonna shoot it, bang-boom
Shoot it from the hip

Got it loaded bang, pull the trigger boom I don't never miss

Hot sweaty steel, a woman's finger's on my gun Pull it hard, touch the trigger Squeeze it when I'm gone Ooh, come, woman, touch me, put it in your hand Take a hold heart and soul Honey, I'm your man Cock the hammer slowly and aim it at your love Put my barrel in your holster Like a velvet glove

Hot and sticky, here it comes Emotion you can't tame Kind a tricky watch it run Smoking like a flame, flame, flame

Hot and sticky, here it comes I got the bullet, load it up Slide it into place My emotions Coming down all across your face
