Walkabouts, Slow Red Dawn

We need a better idea, here quick Before the sun's beatin' down on our necks We need a better idea Watch us speed, to the end of the world Promise all, that we've already heard And still we're nowhere I don't care to know all the details How you left him to shout down the stairs I don't care to know Slow Red Dawn is gonna come Slow Red Dawn is comin' on Slow Red Dawn Do you see that thin strip of light there? On the skyline, it seems unaware That we haven't slept yet But as long as we still laugh for keeps And you swear you were dyin' to leave There's no reason to sleep Slow Red Dawn is gonna come Slow Red Dawn is comin' on Slow Red Dawn Slow Red Dawn is gonna come Slow Red Dawn is comin' on Slow Red Dawn Do ya see that light there? On the skyline unaware Do ya see that light there? Comin' on Are we gonna let it flag? I think we got it in the bag Do ya see the light there? Comin' on
