

Wall Of Voodoo, Mona

In the shadows
Beneath the bones
We lie down
Sicker than sun stricken animals
Wearing his roman gown
Yeah those crazy roman gowns
Dinosaurs making up my world
And we all be T-rex
Cars and factories digging my flesh
And they did me in
Yeah they did me in

Sometime I have my fun
Crawling like roots to a tree
Waiting for the word
Were we to breathe
Were we to breathe

Mona listen come with me
And give me all the good things
My mind needs
Mona listen come with me
And give me all the good things
My mind needs

In the shadows
Beneath the bones
We lie down
Sicker than sun stricken animals
Wearing his roman gown
Yeah those crazy roman gowns

Sometime I have my fun
Crawling like roots to a tree
Waiting for the word
Were we to breathe
Were we to breathe

Mona listen come with me
And give me all the good things
My mind needs
Mona listen come with me
And give me all the good things
My mind needs
Give me all the good things
My mind needs
