

Wallows, These Days

your way i'm trying to understand
these days
I need to know if we are feeling it
or am I wasting my time
your way
or mine

you spent every second with him
you're taking what you're giving
your mother don't approve of the way that you've been living
she says he puts you through it
you shouldn't let him do it
and if there is a voice in your head
don't listen to it

your way i'm trying to understand
these days
I need to know if we are feeling it
or am I wasting my time
your way
or mine
