

# Waltari, Rare Species Poem

You are a busy guy, you have no thought of deja vu  
You are too realistic boring man, to put the guitars on,  
and let the good times groove...  
You think you have a clue about the world so evident  
and you don't know how easily your wicked world will burst into small pieces  
...without your baby!

Do you believe in life without love?  
Do you believe in life without love?  
Do you believe in life without love?  
Remember how it is to feel so sad  
The pc-screen is all that you ever had!

You are an MC-guy, you have a Harley Davidson  
You'd like to show that you're a masterman  
Real Rock'n'Roll  
(ooh, let the good times go..)  
You see the world so narrow that you have no guts to swallow  
that the world changes around us all  
There's nothing more to see  
...without your baby!

Do you believe in life without love?  
Do you believe in life without love?  
Do you believe in life without love?  
Remember how it is to feel so sad  
The MC-scene is all that you ever had!

C'MON BABY LET'S DANCE! LET'S DANCE! LET'S DANCE!  
Do you believe in life without love? (FEEL THE LOVE!)  
Do you believe in life without love? (FEEL THE LOVE!)  
Do you believe in life without love?  
Remember how it is to feel so sad  
The pc-screen is all that you ever had!  
Do you believe in life without love? (FEEL THE LOVE!)  
Do you believe in life without love? (FREE YOUR LOVE!)  
Do you believe in life without love?

Sitting in the dark side of the desire, an admirer  
Is there anyone to see me here tonite?  
The lust of loving me excites her and feeds her  
but dust is the only thing that keeps me moving on

Looking back there was no voice  
that was burning in my deep soul  
Dontcha know, It's all in my dreamworld

Luxury Lotion  
You bloody cream  
What have you done to me?  
You washed all dirt off me  
Cleaned the dust of me  
to keep it clean!  
Luxury Lotion  
You bloody cream  
What have you done to me?  
You washed all dirt off me  
Cleaned the dust of me  
to keep it clean! ...for my dreamworld.

But magic's still inside the body, the party  
Something keeps the dust still slightly moving on  
Desolation, no longer dreaming but existing  
How could I dig a hole in the wall to see the light?

Looking back there was no light  
that was burning in my deep soul  
Dontcha know, It's all in my dreamworld

Luxury Lotion  
You bloody cream  
What have you done to me?  
You washed all dirt off me  
Cleaned the dust of me  
to keep it clean!  
Luxury Lotion  
You bloody cream  
What have you done to me?  
You washed all dirt off me  
Cleaned the dust of me  
to keep it clean! ...for my dreamworld.

Conditional lotion  
You bloody cream  
What have you done to me?  
You washed all dirt off me  
Cleaned the dust of me  
To keep it clean!  
...in my deamworld...  
Do I need you....  
Do I love You....

I'm dealing with the devil  
forced to think of myself  
and you can not pull those strings anymore  
I'm selfish and foolish  
forced to think of myself  
This feeling &quot;down&quot; can't go on anymore

I should tell you what i really know  
but you're too scared to see what I will show  
I should tell you what i really know, what i wanna show

Crazy Angelina  
is eating her own oedema  
and I'm not here to take it anymore  
Madness is spreading  
And today is different  
Devil's drinking his own blood to get on

I should tell you what i really know  
But you're too scared to see what i will show  
I should tell you what i really know, what i wanna show

I'm into something that doesn't exist  
I'm paying my dues, I can't resist!  
The memories of light can't turn this into night  
Somebody needs a highlight to this life!

I should tell you what i really know!  
But you're too scared to see what i will show!  
I should tell you what i really know, what i wanna show!

We are the children of the greed  
I want to spend the night with me  
Information overload  
Just take your asperin and float

Wasting my mind

Home is where your heart will bleed  
So aren't you disconnecting me?  
Just check the system right and we'll be plugged in tight  
and in overnigh I'll radiate my fright

Wasting my mind

I've given everything I own  
for an overtired soul  
I'm staring at the glass, the windows of my past  
I'll keep the program on and you'll be around...

Wasting my mind!

FEAR IS NOT FOR LOVE, IT IS SO CRUEL AND MEAN  
BUT I'LL KEEP IT ON, MY FAMILY LIVES IN A MACHINE  
TOO TIRED TO TALK, TOO TIRED TO RELAX  
TOO MUCH TO DO OR THINK TO STAY ON THE TRACKS  
RADICAL SUNRISE IS NOT TO ARRIVE  
TO BRING MY MIND INTO A POSITIVE JIVE  
YOU CANNOT WIN, THIS PLACE IS JUST TOO BLEAK  
YOU CAN'T ENJOY UNLESS YOU'RE A FREAK

Quick as day  
Quick as a night  
like my poor love seems to be as it fades away

Quick as day  
Quick as a night  
like my poor love seems to be as it fades away

I HEAR THE STEPS COMING IN TOWARDS MY ROOM  
IS IT YOU MONSTER CALLING?, BURSTING LIKE A BALLOON  
IS THIS THE END OF MY LIFE, WHAT HAVE I DONE WRONG?  
IT'S THE TIME OF AXE AND MY FINAL SONG!  
BE BOY, GONE BOY, HERE IT COMES: THE FAST TRENDY VISION THAT THE DAY SUMS

WITH NO HAPPY DREAMS, WITH AN UGLY TRUTH  
OF HOW TO GET KILLED IN YOUR LIVING ROOM!

Quick as day  
Quick as a night  
like my poor love seems to be as it fades away

Quick as day  
Quick as a night  
like my poor love seems to be as it fades away

Don't have to be so tense with me, There's no need, I feel  
Machinelike I stay calm that I can hear when you talk

One day, i will get You, out of my mind, for good  
I will, I will walk on, into nowhere, out of sight...

The slave is here, the file is on, but I don't know how to save  
Just pay me to stay away, and the danger will be erased

One day, I will get You, out of my mind, for good  
I will, I will walk on, into nowhere, out of sight..

SHOW MAN YOUR ABILITY  
SHOW MAN YOUR ABILITY  
CREATIVITY IMMEDIATELY, RESPONSIBILTY  
TO SEE THE DESTINY IN NEED

One day, I will get You, out of my mind, for good  
I will, I will walk on, into nowhere, like a child

One day, I will get You, out of my mind, for good  
I will, I will walk on, into nowhere, out of light...

You seek his soul after  
cold feelings killed laughter  
Your mind is like the concrete wall  
The pride is your master  
wanting revenge faster  
by wearing a grey uniform

There really wasn't time to tell  
the reason why you rang the bell  
A fright oppression is what you feel  
You didn't want to understand  
that's why you didn't lend a hand  
But as long as we're able to carry on, I believe

I live this life for love  
I live this life for love  
There is a light above  
I live this life for love

I live this life for love  
I live this life for love  
There is a light above...  
**WE'RE ROCKIN' ON THE BORDER OF THE BASS LINE**

Talking is cheap labour  
Just choose the right flavour  
and you'll hold the heavens with both hands  
We lean on each other  
but failing's easier  
The problems will be raised so tall

There really wasn't chance to tell  
the reason why you rang the bell  
The fear of pain lives inside me  
You cannot even judge the news  
coz life is just the point of views  
but I do know in what we should believe...

I live this life for love  
I live this life for love  
There is a light above  
I live this life for love

I live this life for love  
I live this life for love  
There is a light above...  
**WE'RE ROCKIN' ON THE BORDER OF THE BASS LINE**

Frail as I wonder  
I wouldn't even know my name  
If you said that it's still the same  
I wouldn't believe

Every day we'll change  
and every nite you cannot know  
what the next day will show  
Nobody will know

We will dream on anyway  
though we won't care  
though we won't pray  
We will dream on anyway  
Against the storm we'll fight with our pain

Willing to give up  
I'm ready to confess causing you a mess  
that I didn't need

One day we will face the truth  
We all have different minds  
With our permanent crimes  
we should get along

We will dream on anyway  
though we won't care  
though we won't pray  
We will dream on anyway  
Against the storm we'll fight with our pain!

We will dream on anyway  
though we won't care  
though we won't pray  
We will dream on anyway  
Against the storm we'll fight with pain for that we pay!
