

# Walter Trout, Please Don't Go

"Please don't go"

This time i can tell your leavin'  
Your eyes tell me that it's true  
You got to move on to a better place  
because there's nothing left here for you  
And I know our time has finally reached an end  
And there ain't no use in hoping,  
or trying to pretend  
It hurts for me to watch you slowly fade away  
If you could only listen to me  
you would hear me say

Please don't go,  
we got so much more to talk about  
Please don't go,  
we got so much more to say  
Please don't go,  
you know we need more time to spend together  
Please don't go away

There ain't no way that I can stop you  
I know I can't do anymore  
So close your eyes and slowly  
move through the open door  
Take my hand, and hold on very tight  
I been sitting here beside you  
as you move on towards the light  
And when I think about you  
on your final day  
I will close my eyes, cause it's the only way

Please don't go,  
we got so much more to talk about  
Please don't go,  
we got so much more to say  
Please don't go,  
you know we need more time to spend together  
Please don't go away

There's nothing I can do  
I know there's nothing that I can do  
You always be a part of me  
You always be a part of me  
I always be a part of you

And after you're gone  
and your soul is free to fly  
you will so like an eagle  
all across the sky  
And you may see me walking  
on a solitary day  
and if you fly close to me  
you will here me say

Please don't go,  
we got so much more to talk about  
Please don't go,  
we got so much more to say  
Please don't go,  
you know we need more time to spend together  
Please don't go away

Please don't go,

don't you go  
Please don't go,  
please don't you go  
please don't go  
you know we need more time to spend together  
please don't go away
