

# Walters Jamie, The Comfort Of Strangers

You took the path of least resistance  
And I've gone from bad to worse  
They say that one man's blessing  
Is another one's curse  
The sun shines softly on the ruins  
As I try to find my way  
You knew exactly what you were doin'  
But left me shattered anyway

Chorus:

It just kills me to see you runnin'  
To the comfort of strangers  
Everyone saw it comin'  
Everyone but me  
Funny how time keeps on runnin'  
Like a river of changes  
And it's left me with nothin'  
But the comfort of strangers  
I remember when I was helpless  
And I needed you the most  
You left me so defenseless  
And vanished like a ghost  
We live without answers forever  
And it's really not enough  
There's all the reasons we're  
Not together  
But what does that say about us  
And like the child inside  
I can't help but cry  
And I won't let you deny me now  
Chorus
