

Wanda Jackson, Because It's You

If this is the life you crave honky tonks night and day
Well I guess I have to learn to like it too
I'll try hard to be like you I wanna do the same you do
I'll meet you on your side of town because it's you
I could never love another if we go down we'll go together
I wanna ride where the tight care is you
Where the wine and liquor flow stay there till it's time to close
Right or wrong I'll tag along because it's you
(steel)
I could never love another...
Right or wrong I'll tag along because it's you
