

Wanda Jackson, Man We Had A Party

Everybody came from miles around
Uptown, downtown, way across town
Yeah, man we had a party
Whew, talk about a party

We did a little singin
A whole lotta swingin
Man, we had a party tonight

Honky tonky Joe, let us all know
He came to have some fun
and put us on a show
Yeah, man we had a party
Whew, yeah, we had a party

We did a little singin
A whole lotta swingin
Man, we had a party tonight

We put some records on the hifi machine
The lights were down low
It was really quite a scene
Yeah, man we had a party
Whew, talk about a party

We did a little singin
A whole lotta swingin
Man, we had a party tonight

Everyone was happy
No one was sad
If you missed the blast
Then it's really too bad
Cause we had a party
When, yeah, we had a party

We did a little singin
A whole lotta swingin
Man, we had a party tonight
