

Wanderers, It's All The Same

(Parsons/Bators)

somebody talked about how we should live
if we can love and where we can live
no one's gonna tell me how
someone talked about supply and demand
what we should buy and how much we can
no one's gonna tell me now
'cause the people in charge won't let us breath
they're tying us down to our paper lives
and I can't take it no more no more
and I can't want it no more no more
'cause it's all the same
somebody talked about crime in the streets
they want us to fear everyone that we meet
no ones gonna fool me now
somebody talked about revolt and reform
the thunder sounds different but were still in the storm
no one's gonna change it now
