

Warcloud, Monarchs

Artist: Holocaust

Album: Blue Sky Black Death presents The Holocaust

Song: Monarchs

Typed by: Cno Evil

(Holocaust)

Like a white spider in the dark, tyrant to the arc
We define every spark, guns deadly to the heart
Stun Betty skull mark, one heavy ghetto chart
Dun reassemble march, dogs bark, night lark
Long knife, machete sharp

(Chorus: Holocaust)

I'll be hustling with the Monarchs' from L.A. parts
I'll be hustling with the Monarchs' from L.A. parts
I'll be hustling with the Monarchs' from L.A. parts
I'll be hustling with the Monarchs' from L.A. parts

(Holocaust)

Battle lord, the savage sword of the tyrant from Alcatraz
Still is known as soldier blood Holocaust
Avalanche advance, enhance
Previous ___ lesson, weapon crashed
Graphic comedian's discretion, battle scan
With plants on hand, my ram, psychiatric evaluations grant
The emergency evacuations plan
The sky above is sworn invisible
You've been warned, blood scorn criminal
I was born invincible

(Chorus)

(Holocaust)

I'm always watching you like the forest at war
Kick you through the door like Chuck Norris
Who was a good friend of Bruce Lee
Now you see the truth of me
As I run and jump kick a firing squad at the end of the movie
Puzzle your muscles, lift your body against gravity
Not all truth to become
You fall into a jungle large earth structure cavity
And as you bleed our earthquakes swallowed up a casualty
Of a side trick tragedy
Today, once again I say, "have you come to battle me?"
A eulogy that'll be, Noah's Ark starts off small
But grows large like tuna
There in a large icy school in the cold Atlantic Sea
Genie _____ did nothing new, my rhyme is proven clinically
A migraine is a headache that relieves
I remember a gypsy in the Philippines who danced with the centipede
From listening to me
Some will be able to survive heat radiation and low temperatures extreme
The rise and the fall of the T-Rex on a track
Outside I enter the bloodsport centre at winter
Just one of you tried to intervene

(Chorus 2X)

(Outro: Holocaust)

Ahhhh... Holocaust..., L.A....
