Song: Sinister

(Holocaust)

This is w-w-w GunInYourFace.com  
The World Series of Poker, Gone in 60 Seconds, I drop bomb  
I'm from L.A. and the projects I'm from is torn down  
They blast from a shotgun, black roses and thorns found  
London, England produced the first police force, so niggas lost  
I'm the Phantom of the Megaplex', bitch, the Holocaust  
Mega science superhuman power, battle plan thrill you  
My rhymes take you to outskirts of town and fucking kill you  
The secret superpower aircraft, cold like Alaska  
To kill me is like trying to find which snake killed Cleopatra  
I'm slippery like a catfish, hassle mechanic Johnny Appleseed  
You forty five or forced to a sixteen  
Slum theater, Peter Pan at the window,  
notched spear, feathers  
Smuggle the women-folk  
Alcatraz, man listen  
I swallow a gun and go to San Quentin  
Jail house night, despite blues, excite fight  
Steal out the lights (sinister)

(Chorus 2X: Holocaust)

Now I should laugh if I were not dead  
Gloriously destructive the sinister monster under your bed  
A store held captive by armed men, ghost of tyrants strikes  
And no one is sure why scorpions glow under ultraviolet light

(Holocaust)

Emcee so badly crushed he was losing a cup of blood  
With every heart beat, I gaze at the stars like the Greeks  
The black heart chief, you don't wanna start beef  
That's the same beef I eat, I'll become a shark reef  
And attack, a misleading feeding frenzy with sharp teeth  
I'm bold as a smart geek, and cold, as a dart's streak  
The American Heritage dictionary, you arrogant heretics disposition tearing  
Weak and obsolete, I'm very non-fiction, scary  
In the desert there is a fabulous creature, the Gila Monster  
It's only one of two venomous lizards in the world  
And it's another mystery unsolved, how it's venom has evolved  
You false rhymers know this venom has helped memory loss and Alzheimer's  
We've seen misunderstood monsters but the tale of terror continues  
You'll only have time to smoke a cigarette before you drop dead

(Chorus 2X)

(Holocaust)

No human mind can imagine the enormous destructive power  
Of this mad and killing thing, my rhyme orbits and abducts you cowards  
Star Trek, I strike a pose with a fencing sword like Mr. Sulu  
If one soldier is afraid, I kill his family like Shaka Zulu  
We may be witnessing the beginning of an annihilation, that could mean  
More than the cleansing of riots of nations  
It is one thing to flag down a truck off the coast of Mexico  
But it is another when you found out that out here  
We're all vampires, and we'll never let you go  
And slang hands at grabbers, a man died in a slammer  
Rough lyrics I kick, come back to me, like Thor's hammer  
I was an ingenious scientist, by the birth name of Robert Bruce Banner  
In light, I saved a man's life in a gamma bomb explosion

From the desert stagger, I've got an incredible alter ego  
Standing in New York in front of people  
Told them my name David, when they didn't know  
But I am not evil...(Bruce is out hitchhiking again)  
tell Betty or Erica  
Next issue I fight misunderstood against Captain America

(Chorus 2X)
