

Warner Mack, I Know How

Yeah I love her like she wants me to and I know how
And it's my duty to know her moods when she gets moody
Yeah I give her what she needs and that's why she's mine right now
Yes I know I love her right cause I know how yeah I know how
Yes I know how to hold her when she needs holding
And I know how to kiss her when she needs kissing
I understand her every wish and her every wish is mine
Yes she knows I love to love her and I know how yeah I know how
(piano + steel)
Yes I know how to hold her...
Yes she knows I love to love her and I know how yeah I know how
