

Warner Mack, Sunshine Bring Back My Sunshine

Everyday I wake up you'd be standing with my coffee cup
Raised the shades let in the sunshine's ray
I looked at you then you'd smile I called you my little Sunshine girl
But then one day my sunshine went away
Sunshine bring back my Sunshine and let my world shine like it used to do
Well you can make things right again take away the hurt within
Oh sunshine you can make the sun shine through
(ac.guitar)
I sit and stare into space and I can see your smiling face
And then the rain starts falling from my eyes
Remembering all the cloudy days when just one smile would take the clouds away
Sunshine a little Sunshine girl
Sunshine bring back...
Sunshine bring back my Sunshine
