Warner Mack, To Make A Man (Feel Like A Man)

The man you've got loves to be at home and I like to wear the breaches
I don't like doin' women things like washin' clothes and dishes
You'll find I'm not that hard to please if you love me right and fill my needs
To make your man feel like a man you gotta show him you're a woman
So show me what you are well you know you can do it
Don't let some other woman come along and beat you to it
Lots of girls might catch my eye what's that girl when a woman falls by
To make your man feel like a man you gotta show him you're a woman
(guitar + steel)
When I come home from a hard day's work I'm always tired and dirty
Don't let me find this latchy queen I have my castle pretty
There's lots of things that you should't do like just as many that you should do too
To make your man feel like a man you gotta show him you're a woman
So show me what you are...
Yeah make your man to feel like a man you gotta show him you're a woman
