

Warpaint, No Way Out (Redux)

Never again will I play that game with you
Got caught up again in a moment, more than I wanted to
Once said I should've kept things all to myself
Now I say it loud as the words rain down

I can't find my way
I can't find my way

I thought I was done with you
I thought I was strong, I guess I was wrong
Once said I should've kept things all to myself
Now I say it loud as the words rain down

I can't find my way /3x
I can't find my
I can't find my way

I don't like this, You can't take the fallout
I like things when there's nothing left to follow
Once said that I should've kept things before they fell, they fell, they fell

I don't like this, You can't take the fallout
I like things when there's nothing left to follow
So now I say it loud as the words rain down
Now I say it loud as the words rain down

I can't find my way
I can't find my
I can't find my way

I can't find my way /3x
I can't find my
I can't find my

Never again will I play that game with you
Thought I was done
Got caught up again in a moment

I took more than I needed to, Took more than I wanted to /3x

I can't find my way
I can't find my
I can't find my way

She said, she said, she said, she said, she said do what you want
She said, she said, she said, she said, I'm sorry
/2x

She said / 20x
I'm sorry, So sorry!
