

# Warrant, Youre The Only Hell

My head is floating in the clouds

My feet are in the ocean

My body is earth bound

My mind is an explosion

Right on time with that line

I'm a kite up in the sky

I don't want to wonder why

Don't stray too far away

I want to feel like this forever

Vertigo

My soul has caught the perfect wave

My spirit is my lover

I hope it rains for forty days

I will walk across the water
