

Warren Brothers, No Place To Go

(Brett Warren/Brad Warren/Marc Jordan)

Why you wearing that dress
With your hair all down
Are you meeting some friends
Mind if I come

Will you be home late
Again tonight
That nothing you're doing
Sure takes a long time

Nobody jumps
With no place to fall
Nobody runs
Before they can crawl
When you walk out that door
Baby I know
Nobody leaves
With no place to go

You're taxi's waiting out in the drive
We said if this happened
Baby we'd never lie
Now I've been here before
All by myself
But that's when I believed
There wasn't anybody else

Nobody jumps
With no place to fall
Nobody runs
Before they can crawl
When you walk out that door
Baby I know
Nobody leaves
With no place to go

So baby keep running from the simple truth
But I won't be waiting when he's leaving you

Nobody jumps
With no place to fall
Nobody runs
Before they can crawl
When you walk out that door
Baby I know
Nobody leaves
With no place to go

Nobody leaves baby
With no place to go
Nobody leaves baby
