

Warzone, In The Mirror

Maybe we're just getting older
But the songs, they ain't the same
I'm tired of living from day to day
You're still playing them fucking games
I just don't look at things the same
But my mind's growing more every day
In my mind I've started to see things clearer
Now I know who I am when I look in that fuckin mirror
In the mirror
It's too bad we've had to go through so much pain
But that pain, it made me go
That pain, it kept me moving
That pain, it helped me grow
I just don't look at things the same
But my mind's growing more every day
In my mind I've started to see things clearer
Now I know who I am when I look in that fucking mirror
In the mirror
It's too bad we had to go through so much pain
But that pain it made me go
That pain it kept me moving
That pain is what will always help me grow and grow and grow
It helped me grow
