

# Washed Out, It All Feels Right

Leaving heading eastbound  
Weekend's almost here now  
It's getting warmer outside  
It all feels right  
Call your friends, I'll call mine  
We'll head out for a long ride  
Sun is coming out now  
It all feels right

Close my eyes  
Think about the old times  
What's it all about?  
The feeling when it all works out  
We'll be gone for a few nights  
Meet up with the old crowd  
Music's playing so loud  
It all feels right

Close my eyes  
Think about the old times  
What's it all about?  
The feeling when it all works out
