Washed Out, It All Feels Right

Leaving heading eastbound Weekend?s almost here now It?s getting warmer outside It all feels right Call your friends, I?II call mine We?II head out for a long ride Sun is coming out now It all feels right

Close my eyes Think about the old times What?s it all about? The feeling when it all works out We?ll be gone for a few nights Meet up with the old crowd Music?s playing so loud It all feels right

Close my eyes Think about the old times What?s it all about? The feeling when it all works out
