

Wassabi, Do the tango with me

Just when I thought we'll never get along
You made me feel like maybe we belong
I hope it's not another dirty trick
Because I'm sick and tired of you puttin' me on fire.
Show yourself the way you really are
Cause I have been misleded from the start
It's love you say but is it really, see
I had to know, so baby do the tango with me.

Refren:

{Step to the right, do you really want me baby?
Step to the left, 'cause you're makin' me go crazy
Step to the front, say you love me or just don't, I had to know
So baby do the tango with me.

Step to the right, do you really want me baby?
Step to the left, 'cause you're makin' me go crazy
Step to the front, say you love me or just don't, I had to know
So baby do the tango with me.}

Whatever you are doing takes too long
If you want be boy you gotta me more strong
I really hate to find out it's a trick
Because I'm sick and tired of you puttin' me on fire.
You wanna make love to me in the car
You really think I'm gonna go that far
You foul around to much as I can see
I had to know, so baby do the tango wth me.
