

Waterloo & Robinson, My Little World

La la la la la
Im a little obsessed
La la la la la
Im a little obsessed

This situation blows my mind
No complication not this time
Im walking this path
With a bubbly bath
Scented candles to suit the scene

Im not afraid to jump right in
My brain is dead when it comes to sin
Just setting the pace for all ill face
Cause baby

Im totally wholistically so dizzily and socially
Connected to all and only you
Cause

Im a little obsessed
Whoa
Im a little possessed cause youre so cool
Certifiably insane
Doctor says on the edge but thats ok
Im a little piddle widdle
Somewhere in between the middle of
Im a little obsessed
Baby
Im a little obsessed with you

This medication fades away
Who needs those pills anyway
Im feeling fine somewhat inclined
To reach across and nibble on your nose for a while

You've got the cutest little face
Even if it now looks out of place
I hope my roller coaster mouth
Letting all these secrets out
Hasn't put you off

Cause im totally wholistically so dizzily and socially

Connected to all and only you
Cause

Im a little obsessed
Whoa
Im a little possessed cause your so cool
Certifiably insane
Doctor says on the edge but thats ok
Im a little piddle widdle
Somewhere in between the middle of
Im a little obsessed

This situation blows my mind
No complication not this time

(Repeat bridge and chorus)
