

Wave, With The Stars

There is a place
In outer space
I wanna go
No crime scenes
No magazines or TV shows
Jump in the car
Right where you are
The best is yet to come
Right off the ground
Speed of sound
And we're gone

Chorus:
Now we'll ride with the stars(with the stars)
Could we be very far(very far)

Far from this place
We'll win the race
The path is clear
We'll settle down
No one around
Nothing to fear
Jump in the car
Right where you are
The best is yet to come
Right off the ground
Speed of sound
And we're gone

Chorus
