

# Waylon Jennings, The Most Sensible Thing

I've taken chances on everything in my life  
Even against all the odds I've rolled the dice  
Count me in on any deal that comes around  
Right or wrong never slowed me down.  
I've always loved you silent but strong  
Deep down in your heart you've always known  
It's just that I've made more mistakes than any man under the sun  
You're the only sensible thing I've ever done.

--- Instrumental ---

Never complaining back when the times were bad  
Even when your faith in me was all we had  
Loving me wasn't worth the price you paid  
Darling, I've been wrong this is all I can say.  
I've always loved you silent but strong  
Deep down in your heart you've always known  
It's just that I've made more mistakes than any man under the sun  
You're the only sensible thing I've ever done.  
You're the only sensible thing I've ever done...
