# Waylon Jennings, Wasting Time

I've been thinking it over wondering what to do
Up to now I've been leaving it up to you
But you'll always be the way you've always been
I ain't got the time to go through that again

I've been wasting time and I'm to blame
Living with things I couldn't change
And the one conclusion I've come to
I've been wasting time and a lot of good love on you

I've made up my mind to make my move
It's just a waste of time to wait on you
I'm set to leave and you're set in your ways
You can't change and if you can't I can't stay

I've been wasting time that I can't spare
Wastin' love when you don't care
And the one conclusion I've come to
I've been wasting time and a lot of good love on you

I've been wasting time and I'm to blame...
