

# Waylon Jennings, Woman, Let Me Sing You A Song

Woman let me sing you a song  
Woman let me sing you a song  
That tells how you've done me wrong  
So it's your fault if it's long.  
Woman let me sing you a song.  
Well, the neighbors all say I run around  
Yeah. the neighbors all say I run around  
But baby if I do I'm still miles in back off you  
Woman let me sing you a song.  
--- Instrumental ---  
You tell our friends I drink too much  
Now the whole town knows I drink too much  
But the reason why I drink  
Is a thought you make to think  
Woman let me sing you a song.  
Woman let me sing you a song  
Woman let me sing you a song  
I said I'd die for you  
And I have the time or two  
Woman let me sing you a song.  
Now, woman I've done sang you my song...
