

Wayne Touns, Take My Hand

When I look, at your face
Your still as pretty as angel,
but there's something outta place
What's wrong with you baby,
I don't understand, Is it just me or do you want another man?

Take my hand, Say you'll be true
Say those simple words, Oh I love only you
Take my hand, Ohhh and hold it tight
Take my hand and everything will be alright

Still got the moves that blow me away
and when you kiss me baby
I still don't know what to say
but deep down inside me girl somthings wrong
i'm still a fool for you honey was I your fool all a long

Take my hand, say you will be true
and say those simple words oh I love only you
Take my hand, oh! and hold it tight
Take my hand and everything will be alright

oh I got the feeling that you want a new life
but I was hopeing that someday, oh you'd be my wife
I understand if you wanted someone new
I could just about imagine how long it would take to get over you

oh take my hand, say you'll be true
say those simple words, oh I love only you
take my hand, oh and hold it tight
take my hand and everything will be alright, Yeah Yeah Yeah
take my hand say you'll be true
say those simple words oh I love only you
take my hand oh and hold it tight
take my hand and everything will be alright. No no no no!
