

Wayne Toups, Thats What I Love About My Baby

I promised to the world
On a silver platter
But the promises I make
I couldn't keep

But at the time
The only thing that mattered
Was to find a way to sweep her off her feet

For the first time in my life
I have somethin special
She surrendered all her precious love to me

Each night I thank my lucky stars
And count my many blessings
Yes, I do
Thats she puts all her faith in me

Thats what I love about my baby
Thats what my baby means to me
Yeah, thats I love about my baby

She means the world to me
Yeah!

Her lips are sweet as cotton candy
Warmer than all forgotten why (??)
Softer than silk, soaked in satin
But the best part of it all
Is she's all mine!

Thats what I love about my baby
Thats what my baby means to me
Thats what I love about my baby
She means the world to me
Yeah!

Thats what I love about my baby
Thats what my baby means to me
Thats what I love about my baby
She means the world to me
Yeah!
