

Weak At Best, Taylor Made

and we will never be the same
because you opened up our hearts
to so many different things
(whatever it takes we will see you again some day)
my heart skipped a beat
and my stomach turned on that day
(whatever it takes we will see you again some day)
when i think about the times we had
i took advantage of it so bad
it hurts so bad
our brotherhood bond will take us till the end
no matter what you're always my friend
when i think of all the reasons
why I wrote this song
you're gone
and i'll never get to see you again
no matter what you're always my friend
