

Webb Wilder, Safe Side

Safeside
(M. Henderson/R.S. Field)

You want keep it on the safe side
With rules and guarantees
Well I'm not afraid of playing with fire
As long as we're playing for keeps

I don't want to stay on the safe side
Come on, let's take a wild ride
You can't keep what you're feelin' inside
Let's see if we can make the fever rise

You can get hurt when the sparks are flying
That's a chance we'll have to take
You want to use a slow burnin' fuse
I want to fan the flames

I don't want to stay on the safe side
Come on, let's take a wild ride
You can't keep what you're feelin' inside
Let's see if we can make the fever rise

You can't trust to luck now
You've lost big before
But I'm too scared to wind up with nothin'
If we don't go for broke

Who can afford to gamble?
All you got's one heart to lose
Let lightning strike me deaf dumb and blind me
If mine don't belong to you

I don't want to stay on the safe side
Come on, let's take a wild ride
You can't keep what you're feelin' inside
Let's see if we can make the fever rise

I don't want to stay on the safe side
Come on, let's take a wild ride
You can't keep what you're feelin' inside
Let's see if we can make the fever rise

I don't want to stay on the safe side
I don't want to stay on the safe side, no
Yeah
