

# Weeping Tile, South of Me

South of me  
Or west I see  
When I look on a map like that  
I'll meet you somewhere in between

Where did it start?  
My magnet heart  
We met in a liquid state  
A place to drink in the dark

I'll be waiting for you now  
I'll be waiting for forever  
What's a few days of denial for me  
I'm lookin' like anyone would be

South of me, how've you been?  
I wish I touched the back of your knee  
Up there on the balcony  
Where did it start, magnet heart?  
When we met in the liquid state  
A place to drink in the dark

Are you waiting for me now  
Are you waiting for forever  
What's a few days of denial for me  
Well I'm lookin' like anyone would be

I'll be waiting for you now  
I'll be waiting for forever  
What's a few days of denial  
I'll be waiting for forever

I'll be waiting for you now  
I'll be waiting for forever  
What's a few days of denial for me  
I'm lookin' like anyone would be  
I'm lookin' like anyone would be

Just lookin'  
I'm just lookin'  
I'm just lookin'  
Just lookin'  
Anyone would be  
Anyone would be
