

# Weeping Willows, Stay With Me

Now I've reached the bottomline  
My moment of truth  
I walked 'round the burning flames when I should have run through  
I'm down on my bended knees  
I can't cry no more  
I can't find an easy way  
I need help to get up from the floor

Stay with me  
I need a second chance  
Only love can lift the heavy burden from my heart  
Stay with me  
When everything is dark  
That's when we can watch the twinkling stars

I knew you were there for me but now I've been bad  
I ate the forbidden fruit and forsook what I had  
I wanted to have it all  
Now I must plead  
I need you to catch my fall  
Oh please, have mercy on me

Stay with me  
I need a second chance  
Only love can lift the heavy burden from my heart  
Stay with me  
When everything is dark  
That's when we can watch the twinkling stars
