Weeping Willows, Sunny Days

The sunshine warmed your flat It filled the room
But I didn't notice that
Cause I had you
In full bloom
I had you

Summer days in your bed Sunny days Summer days with you, babe Those were sunny days

Through the window of your room I heard birds
Singing perfectly in tune
For me and you
Deep in June
I had you

Summer days in your bed Sunny days Now they're all in my head Those sunny days
