

# Weeping Willows, While I'm Still Strong

There's no trust. Not anymore  
This time you've gone too far  
So step aside. Out of my life  
Take your troubles out the door

Please, get out, get lost. You've hurt me one last time  
I've had enough, the deal is off  
But you should know that I believed and loved you all along  
Please leave while I'm still strong

Don't deny. Don't even try  
There's nothing more to say  
I can't forgive the things you did  
Pack your bag and go away

Please get out, get lost. You've hurt me one last time  
I've had enough, the deal is off  
But you should know that I believed and loved you all along  
Please leave while I'm still strong (3x)
