

Weezer, Broken Arrows

Every hour
every day
since youve gone far away
its a rough canopy of dreams
and broken arrows
and broken arrows

baby dont you know,know
get in the car just before we go
we go
we go

every hour
every day
though it seems far away
its a last chance to be with you
and heal your heart ache
and heal your heart ache

and baby dont you know,know
get in the car just before we go
we go
we go

and after all that we couldnt taste
we turn to you and say this the way
we have no mind we have to find
I need love
I need love

Baby dont you know,know
get in the car just before we go
we go
we go

Every hour
every day
every hour
every day
