

Weezer, How Long?

2+2,
Me and you,
Strollin' down the avenue,
I never knew that this was meant to be.....

And all those times we looked into each other's eyes,
I did it again, I did it again, I did it for you!

Holding on,
To a song,
I guess it's time we passed it on.....
Because one of us keeps changing everyday...

And all those times we told each other little lies....
I did it again, i did it again, I did it for you!

How long before we learn to live and fly away?
How long before we learn to live another day?

Woah-oah....

And all those times we broke our hearts despite ourselves.....
I did it again, I did it again, I did it for you!

How long before we learn to live and fly away?
How long before we learn to live another day?

Woah-oah.....
