

Weezer, I Can Love

I didn't hope for much
I was used to how things were
Even though I was not sure
You say
I was throwing it away
And I never learned to heal

I can't believe what I see
After all this time it is meant to be

Help me believe
Believe
Believe
That I can love
I can love (x7)

I guess it goes to show
That you never should give up
Even when you're out of luck
You might
Find an angel in your sight
Who turns everything around

I can't believe what I see
After all this time it is meant to be

Help me believe
Believe
Believe
That I can love
I can love (x7)

Help me believe what I see
After all this time it is meant to be

Help me believe
Believe
Believe
That I can love
I can love
